

JKI PCM2 Connection Guide

Connection to DUT

- JKI PCM2 is a 3-channel DC Power Analyzer
- Each Channels are connected to DUT by 6-pin terminal block cable assembly

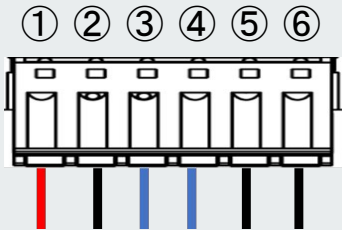

< PCM2 Connection Diagram >

Terminal Block Pin Description

PIN	Name	Function	DUT Connection
1	IN (+)	Input Track	In Track mode, connect to the tracking power of DUT. In Supply mode, this pin can be opened.
2	IN (-)	GND	Connect to the Ground pin of DUT.
3	OUT (+)	Output Force	Connect to the Power pin of DUT.
4	OUT (+ S)	Output Sense	Connect to the Power pin of DUT.
5	OUT (- S)	GND Sense	Connect to the Ground pin of DUT.
6	OUT (-)	GND	Connect to the Ground pin of DUT.

① IN (+)	② IN (-)	③ OUT (+)	④ OUT (+S)	⑤ OUT (-S)	⑥ OUT (-)
------------	------------	-------------	--------------	--------------	-------------
